

NOMAD BIOMETRICS™ APP IS HERE, THERE AND EVERYWHERE

With the Nomad Biometrics app, you'll never have to worry about forgetting important data for your X-PLOR portable oxygen concentrator (POC) again. This easy-to-use app collects specific oxygen metrics from your X-PLOR device so your oxygen therapy data is always just a few taps away.

APP FEATURES

- Simple, easy to use interface.
- Nomad tracks your breath rate, oxygen usage (hours used), pulse volume, battery life and alarm history all directly from your POC unit.

Plus, provides filter and cannula reminders, access to user manual and FAQ, and ability to input spirometer and pulse oximeter data.

- Bluetooth® enabled, so you can connect to your iPhone®, Android® phone, Samsung® watch, Apple Watch®, Nonin® or Masimo® pulse oximeters, and Fitbit® wearables.
